If you had positive proof that a certain remedy for female ills had made many remarkable cures, would you not feel like trying it?

If duing the last thirty years we have not succeeded in convincing every fair-minded woman that Lydia E. Pinkham's Vegetable Compound has cured thousands and thousands women of the ills peculiar to their sex, then we long for an opportunity to do so by direct correspondence. Meanwhile read the following letters which we guarantee to be genuine and truthful.

Hudson, Ohio.—"I suffered for a long time from a weakness, inflammation, dreadful pains each month and suppression. I had been doctoring and receiving only temporary relief, when a friend advised me to take Lydia E. Pinkham's Vegetable Compound. I did so, and wrote to you for advice. I have faithfully followed your directions and now, after taking only five bottles of the Vegetable Compound, I have every reason to believe I am a well woman. I give you full permission to use my testimonial."—Mrs. Johia Carmocino, Hudson, Ohio. R. F. D. No. 7.

St. Regis Falls, N. Y.—"Two years ago I was so bad that I had to take to my bed every month, and it would last from two to three weeks. I wrote to you for advice and took Lydia E. Pinkham's Vegetable Compound in dry form. I am happy to say that I am cured, thanks to your Founder of His Counter for the good of others."—Mrs. J. H. tle of what he feels. Eyere, St. Regis Falls, N. # LET'S CUT IT OUT.

Why is it that when a superb office building is erected in Atlanta, or a magnificent tourist hotel in Florida, that we speak of it as "the finest in the South"?

There are colleges and universities in the Southern States with money enough behind them and brains enough inside of them to make them equal to the best, but when a Southern woman gets rich enough she sends her sons to Harvard or Yale, because well, why? We heard it said the other day that a certain denominational college in North Carolina has the highest standard of all the colleges south of Mason and Dixon's line. bid anybody ever hear anything spoken of as the best "north of Mason and Dixon's line."

This ingrown belief in our own limitations is a "curse and a snare."

Let's cut the habit out of our speech and our thought, and when we have anything good or grand call it at least "the best in the land."

Another Mine Horror Carries Death to Many.

MANY DIE OF SUFFOCATION.

Mouth of Primero Pit of Colorado Fuel and Iron Company Blocked by Explosion, Imprisoning Men.

Primero, Colo., Special.-Fighting madly to escape through the narrow partly checked airshaft, trampling over their fallen comrades in their struggle for life, more than half of the 149 miners employed in Primero mine of the Colorado Fuel & Iron Company, wrecked by an explosion Monday afternoon, were overcome by gas and fire. Their bodies were found in heaps along the bottom of the airshaft, where they had fallen in the desperate struggle.

One hundred and forty nine men are known to have been in the mine when the explosion occurred. It is stated that 79 are dead. One has been rescued alive but dangerously injured.

Their bodies are torn and charred almost beyond recognition, and it has been impossible to identify the dead. Twenty-four bodies have been brought to the surface and rescue parties equipped with oxygen helmets were searching the ruined workings.

Most of the miners entombed are Slavs, Hungarians and Italians, Only two Americans, William Helm, electrician, and David Williams, were among the missing.

### Cause of Disaster.

The disaster is believed to have been caused by an explosion of fire damp ignited either through the erimping of a cap for a fuse or the lighting of a match surreptitiously carried into the workings.

Drakesboro, Ky., Special.-Ten men are known to be dead and seventeen others are missing, presumed to be penned up in entries by falls of slate. as a result of a gas explosion in the Browder mine, one and one-half miles from Drakeshoro, at noon Tuesday.

Eight bodies have been recovered, all of them horribly mutilated.

## Mine Fatalities.

Including the fatalities in the Cherry mine, disasters in the West since last November have elaimed 397 victims. At Cherry more than 300 miners were entombed, only twenty of them being taken out alive a week later. More than 150 bodies are still unrecovered because of a fire which raged for weeks.

Coopers Ask For New Trial.

Nashville, Tenn., Special.—The mo-tion for a new trial for Col. D. B. and Robin Cooper, convicted and sentenced to prison for 20 years for the murder of former United States Senator E. W. Carmack, was called before the Supreme Court Tuesday. It bids fair to become the most voluminous case ever filed. The trascriput of testimony covers 3,670 typewrit-ten pages. The brief filed by the defense covers 447 printed pages, while the arguments of counsel will require probably a thousand more typewrit ten pages. Attorneys for the slavers Senator Cormack claim that the trial judge made numerous errors.

Soft Yarn Spinners Urge Mills to

Continue Present Plan of Curtailment. N. C., Special, The Charlotte. Southern Soft Yarn Spinners' association met in annual session here Thursday, and the most important

matter to come up was the annual election of officers, which resulted as follows: President, J. F. Taylor, of Kinston, N. C.; first vice president. J. B. McMillan, of Talladega, Ala.; second vice president, former secretary, Robert Chapman, of McColl.

A general discussion of prevailing yarn conditions was gone into and resolutions were adopted urging spinners not to sell at the present basis of comes and paper, which has heretofore been the custom. Investigation disclosed the fact that yarn stocks have been rapidly reduced and some mills have practically none on hand at present. Mills were urged to continue the present curtailment until such time as yarus shall ad-vance to a better basis of profit.

### GET POWER The Supply Comes From Food

If we get power from food, why not strive to get all the power we can. That is only possible by use of skilfully selected food that exactly fits the requirements of the body.

Poor fuel makes a poor fire and a poor fire is not a good steam producer.

"From not knowing how to select the right food to fit my needs, I suffered grievously for a long time from tomach troubles." writes a lady from a little town in Missouri.

"It seemed as if I would never be able to find out the sort of food that was best for me. Hardly anything that I could eat would stay on my stomach. Every attempt gave me neart-burn and filled my stomach with gas. I got thinner and thinner until I literally became a living skeleon and in time was compelled to eep to my bed.

"A few months ago I was persuadd to try Grape-Nuts food, and it had uch good effect from the very begining that I have kept up its use ever ince. I was surprised at the ease with which I digested it. It proved o be just what I needed.

"All my unpleasant symptoms, the eart-burn, the inflated feeling which ave me so much pain disappeared. ly weight gradually increased from 8 to 116 lbs., my figure rounded out, ly strength came back, and I am now ble to do my housework and enjoy t. Grape-Nuts did it."

A ten days' trial will show anyone ome facts about food.
